Subject: APPLICATION FOR SOURCE MATERIAL LICENSE

Dear Mr. Price:

In the performance of a research and development program for Atomic Power Development Associates, Inc. we have used normal uranium and returned it to AEC production channels. The contract for this work was originally based on a prime contract between APDA and AEC but since June 1, 1955 we understand that APDA has been operating under the Access Permit program. Accordingly, we wish to "regularize" our action by securing a license to cover the processing of an estimated 132 kilograms of normal uranium during the period June 1, 1955 to December 31, 1955.

Very truly yours,

SYLVANIA ELECTRIC PRODUCTS INC.
