Attention: Mr. W. E. Kingston,
General Manager

Gentlemen:

Reference is made to your letter of December 20, 1955 which requests a license to cover an estimated 132 kilograms of normal uranium received during the period June 1, 1955 to December 31, 1955.

Since the uranium has been returned to AEC stocks, we do not feel that a license need be issued at this time. If further action on your part in this matter is required you will be so advised.

Very truly yours,
