NRC TO MEET WITH ENTERGY TO DISCUSS SAFETY PERFORMANCE AT GRAND GULF

The U.S. Nuclear Regulatory Commission staff will meet with representatives of Entergy Operations, Inc. on Thursday, April 11, to discuss the results of the agency's annual assessment of safety performance at the Grand Gulf Nuclear Station. The facility is located near Port Gibson, Miss., and is operated by Entergy.

The meeting, which will be open to the public for observation, is scheduled to begin at 5:30 p.m. at the Claiborne County Emergency Operations Center, Highway 18E, Port Gibson. NRC staff will be available before the meeting is adjourned to answer any questions from the public.

A letter sent from NRC Region IV to Entergy addresses plant performance during the period April 1 to December 31, 2001, and will serve as the basis for the meeting discussion. It is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/LETTERS/gg_2001q4.pdf.

Current performance information for Grand Gulf is available on the NRC web site at: http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/GG1/gg1_chart.html.
