Radiological Health Unit

Att: Mr. Philip D. Wolf  
Controller

REFER TO:  
LR 0085

Dear Sir:

This is Amendment No. 3 to State of New York Radioactive Materials License No. 744-0085, Reference No. 1, assigned to your company by this Department pursuant to the newly revised State of New York Industrial Code Rule No. 38, "Radiation Protection" (12 NYCRR 38), as amended effective September 1, 1971.

The letter submitted by you on September 10, 1972, including the supporting documentation, in which a request for a waiver from filing a security bond pursuant to Section 38.7 (c) was made, has been approved and conditioned herein. Your company has fulfilled the requirements of this section at this time. Pursuant to said Code Rule, the waiver approval covers the aforementioned license, including any radioactive materials currently registered, and shall be in effect during the entire period of this license to April 30, 1974, the newly assigned date of expiration of this license. Any changes in your company financial responsibility to assure reimbursement to the Industrial Commissioner pursuant to subdivision (c) which may affect our waiver approval shall be brought to our attention immediately.

Pursuant to said Code Rule, the applicable new Sections supersede any and all Requirements that are stipulated in the Conditions of this license, including all Amendments issued thereto, which shall be followed. Also, in addition to filing an application more than 30 days prior to said expiration date for a renewal of this license pursuant to Section 38.11, your company shall file either a bond or submit a written explanation thereof relating to any of the exemptions from the bonding requirements which must be approved by the Industrial Commissioner. Should your company decide to seek a continuation of the waiver approval, your company must provide us, as well, with a final audited balance sheet for the past year certified by a certified public accountant.

Please contact us directly if you have any questions, or if we may be of assistance to you in this matter.

Very truly yours,

Norris Kleinfeld, M.D.  
Director
