Re: 744-0085

Dear Sir:

GTE Laboratories Incorporated is in the process of moving its laboratory facilities in Bayside, New York to Waltham, Mass. The Bayside property is scheduled to be vacated on June 8, 1973. - *disposed*

All radioactive materials licensed under New York State License 744-0085 have been removed from the facilities.

An initial survey was made of the premises by Teledyne Isotopes. All contaminated areas were either decontaminated or disposed of by Teledyne Isotopes. The results of their initial and final surveys are attached.

We hereby request a release of the facilities for use.

Sincerely yours,

J. F. Cosgrove
Manager
Materials Evaluation
