Dear Mr. Roberts:

This is a followup to our telephone conversation last week in which you requested radiological survey information relating to sites in Bayside and Hicksville, New York. These sites had formerly been used for early atomic energy work under contracts to the Department of Energy's predecessor and under licenses issued by the State of New York and by the Nuclear Regulatory Commission's (NRC) predecessor.

I am enclosing the available radiological survey records. If I can be of further assistance, please contact me at 301-903-8149.

Sincerely,
