W. E. Mott, Acting Director, Public Safety Division, Office of Operational Safety, Office of Environmental Protection, Safety and Emergency Preparedness, EP-323, Headquarters, Germantown, Maryland

RASCA PROGRAM - BAYSIDE, NEW YORK

As requested in your memorandum dated May 10, 1982, the additional soil samples from the Bayside, New York site, as provided by the Environmental Measurements Laboratory, have been analyzed by ORNL. Only background levels of <sup>238</sup>U were found. The results of the ORNL analyses are attached.
