DATE SIGNED:

Governor Dean, Ms. Salembier, Mr. Dworkin, Mr. Meserve,

Please treat this as a safety concern for thousands of people who live nearby in VT., N.H. and MA.

1) Vermont Yankee has 5 defective fuel rods and therefore an unscheduled outage is due May of 2002, please use this time to examine the safety of this power station.

2) The Nuclear regulatory Commission rated Vermont Yankee, yellow, the worst of all 103 power stations in the country.

3) The 3/19/2002 Federal Emergency Management Agency test of the evacuation procedures showed glaringly that neither VT nor VY are prepared for an emergency at Vermont Yankee.

We undersigned ask you to please call for an immediate global independent safety assessment, thank you
