UNITED STATES NUCLEAR REGULATORY COMMISSIONINDIANA MICHIGAN POWER COMPANYDOCKET NO. 50-316NOTICE OF WITHDRAWAL OF APPLICATION FORAMENDMENT TO FACILITY OPERATING LICENSE

The United States Nuclear Regulatory Commission (the Commission) has granted the request of Indiana Michigan Power Company (the licensee) to withdraw a portion of its January 11, 1988, application for proposed amendment to Facility Operating License No. DPR-74 for the Donald C. Cook Nuclear Plant, Unit No. 2, located in Berrien County, Michigan.

The amendment would have allowed certain tests normally designated as 18-month surveillances to be delayed until the end of the next refueling outage for Unit 2.

The Commission issued a Notice of Consideration of Issuance of Amendment which was published in the FEDERAL REGISTER on February 17, 1988 (53 FR 4796). By letter dated February 29, 1988, the Commission issued Amendment No. 99 to Facility Operating License No. DPR-74, which granted three of the six requested surveillance extensions. The outage occurred earlier than anticipated, and an extension for three of the six tests was no longer necessary. Thus, by letter dated May 2, 1988, the licensee withdrew the proposed change for the remaining three surveillance extensions. The January 11, 1988, application also proposed two minor editorial changes which were issued with Amendment No. 97.

For further details with respect to this action, see (1) the application for amendment dated January 11, 1988, (2) Amendments Nos. 97 and 99 to Facility Operating License No. DPR-74, and (3) the licensee's letter dated May 2, 1988, withdrawing parts of the application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, DC, and at the Local Public Document Room located at the Maude Preston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan 49085.

Dated at Rockville, Maryland, this 6th day of September 1988.
