

# Session W7

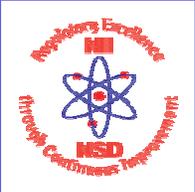

## International Issues and Perspectives

### Regulatory Processes and Issues for New Reactors

William Ascroft-Hutton  
HM Superintending Inspector  
HM Nuclear Installations Inspectorate UK

6 March 2002

# Current Position in the United Kingdom

- Energy Review
- Licensee Status
- Regulatory Review

# Role of Regulator in Future Systems

- Depends on national regulatory framework
  - legal powers
  - advisory role
- Expertise in regulatory processes
- Intelligence

# Challenges

- novel concepts
- change in philosophy
- construction timescales
- reduction in “regulatory risk”
