See Amend to License

SUBJECT: ISSUANCE OF AMENDMENTS (TAC NOS. M98875 AND M98876)

Dear Mr. Kingsley:

The U.S. Nuclear Regulatory Commission (Commission) has issued the enclosed Amendment No. 128 to Facility Operating License No. NPF-11 and Amendment No. 113 to Facility Operating License No. NPF-18 for the LaSalle County Station, Units 1 and 2, respectively. The amendments are in response to your application dated May 27, 1997, as supplemented on August 1, 1997, and March 24, 1998.

The amendments revise Technical Specification (TS) Section 6, "Administrative Controls," to incorporate revised organizational titles and delete the Unit 1 Facility Operating License Condition 2.C.(30)(a) related to the Shift Technical Advisor function. In addition, the amendments change the submittal frequency of the Radiological Effluent Release Report from semiannually to annually and make several administrative and editorial changes.

A copy of the Safety Evaluation is also enclosed. The Notice of Issuance will be included in the Commission's biweekly Federal Register notice.

Sincerely,

ORIG. SIGNED BY
Donna M. Skay, Project Manager
