Docket Nos. 50-237/249
LS05-84-08-039

Mr. Dennis L. Farrar
Director of Nuclear Licensing
Commonwealth Edison Company
Post Office Box 767
Chicago, Illinois 60690

Dear Mr. Farrar:

SUBJECT: CORRECTED PAGE TO AMENDMENT NO. 82 FOR UNIT 2 AND CORRECTED AND
MISSING PAGES TO AMENDMENT NO. 75 FOR UNIT 3

Re: Dresden Nuclear Power Station, Unit Nos. 2 and 3

Our letter dated August 6, 1984 transmitted Amendment No. 82 for Dresden 2 and Amendment No. 75 for Dresden 3 which were the reformatted Technical Specifications (TS) for both units. Our License Authority File Section upon examination of their copy of our transmittal noted an error in the second page of the amendment for Dresden 2 and that page 3/4.8-17 was missing from the Dresden 3 Technical Specifications. In addition, the Attachment to License Amendment No. 75 should read "Facility" and not "Provisional" Operating License DPR-25.

Please replace the second page of the amendment to Dresden 2 with the enclosed corrected page, replace the Attachment page with the enclosed corrected page and add the enclosed page 3/4.8-17 to the Dresden 3 Technical Specifications.

We regret any inconvenience caused by these errors.

Sincerely,

Original signed by

Walter A. Paulson, Acting Chief
Operating Reactors Branch #5
Division of Licensing

2. Accordingly, the license is amended by changes to the Technical Specifications as indicated in the attachment to the license amendment and paragraph 3.B of Provisional Operating License No. DPR-19 is hereby amended to read as follows:

B. Technical Specifications

The Technical Specifications contained in Appendix A, as revised through Amendment No. 82, are hereby incorporated in the license. The licensee shall operate the facility in accordance with the Technical Specifications.

3. This license amendment is effective as of the date of its issuance.
