Dear Mr. Williams:

On July 2, 1985, the Commission issued Amendment No. 86 to Facility Operating License No. NPF-3 for the Davis-Besse Nuclear Power Station, Unit No. 1. The amendment revised the Appendices A and B Radioactive Effluent Technical Specifications (TSs) and becomes effective October 30, 1985. The instructions for filing the Appendix B pages incorrectly stated "2.1-2 through 2.1-18 (Delete)." The correct wording is "2.4-1 through 2.4-18 (Delete)." Please make this change to the filing instructions.

Sincerely,

*Original signed by*

Albert DeAgazio, Project Manager  
Operating Reactors Branch #4  
Division of Licensing
