Dear Commissioners:

Environmental Health Coalition (EHC) is a non-profit environmental justice organization working in the San Diego/Tijuana region. We wish to express our support for the comments of San Luis Obispo Mothers for Peace regarding the proposal for Edison's proposed high-level waste storage and transportation for San Onofre Nuclear Generating Station (SONGS).

We are very concerned about the issues that have been raised by community members living close and downwind of the facility that the casks that are proposed are not state-of-the-art and that the earthquake risks are grossly underestimated.

We urge the Commission to ensure that full public participation is followed for this issue and that no high-level waste storage is allowed without a concurrent commitment to cease the generation of high-level dangerous radioactive waste.

Sincerely,

  
Laura Hunter, Director  
Clean Bay Campaign
