Gentlemen:

On March 3, 1978, the Commission issued Amendment No. 30 to Facility Operating License No. DPR-51 for Arkansas Nuclear One, Unit No. 1 (ANO-1). This amendment incorporated fire protection Technical Specifications on the existing fire protection equipment and added administrative controls related to fire protection at ANO-1. This amendment was made effective as of the date of its issuance; however, in order to provide a period of time to modify procedures to conform with the details of the Technical Specifications and to complete required personnel training where necessary, the amendment should have been made effective 30 days after the date of issue. Please correct your copy of Amendment No. 30.

Sincerely,

Robert W. Reid, Chief
