Subject: Re: STATE OF OHIO DRAFT KI POLICY

Ohio has developed a third version of a draft KI policy. That draft was developed in December 1999. A fourth draft is planned after the federal guidance has emerged. Since we have not finalized our policy, I do not believe that it would be appropriate to include the draft policy in the NRC guidance document until we have finalized our policy in Ohio. In addition, I have publically stated that we were waiting to finalize our policy until after the federal guidance had been developed. I appreciate the opportunity but I request that Ohio's policy not be included until we have finalized it.

Roger:

As a result of a recent meeting with an NRC Commissioner and staff on the NRC's KI policy, a request was made to ask Ohio if they would have any problems with NRC including Ohio's draft KI policy in the revision to NUREG 1633 that is due out shortly. Please provide me with your position on this matter. Thanks.

Roland Lickus
