

MAY 08 1986

Docket Nos.: 50-498
and 50-499

Mr. J. H. Goldberg
Group Vice President - Nuclear
Houston Lighting and Power Company
Post Office Box 1700
Houston, Texas 77001

Dear Mr. Goldberg:

SUBJECT: SOUTH TEXAS PROJECT (STP) EXEMPTION REQUEST TO GDC-4

REFERENCES: 1) Letter from J. H. Goldberg to H. R. Denton, dated September 28, 1983 (ST-HL-AE-1010)
2) Letter from J. H. Goldberg to H. R. Denton, dated July 17, 1984 (ST-HL-AE-1096)
3) Letter from J. H. Goldberg to H. R. Denton, dated March 1, 1985 (ST-HL-AE-1200)
4) Letter from J. H. Goldberg to H. R. Denton, dated August 19, 1985 (ST-HL-AE-1326)
5) Letter from M. R. Wisenburg to V. S. Noonan, dated January 13, 1986 (ST-HL-AE-1577)
6) Letter from M. R. Wisenburg to V. S. Noonan, dated March 7, 1986 (ST-HL-AE-1618)

References (1) through (6) pertain to your request for relief in the application of General Design Criterion 4 in 10 CFR 50, Appendix A at STP. Reference (6) indicated that in anticipation of favorable Commission action on a proposed rule addressing the relief you sought, you were taking action to remove certain components. The purpose of this letter is to inform you that the Commission did approve the proposed rule and the final rule has been published in 51 Federal Register 12502 on April 11, 1986. With the issuance of the new rule and the modification of GDC-4 as indicated, staff action on your exemption request has become unnecessary. Since your actions to take advantage of the rule change would require changes to the FSAR in a future amendment, the next action by the staff on this matter is expected to be an evaluation of the design changes implemented at STP after we receive the amendment. However, as indicated in the supplementary information accompanying the rule, you should review the PSAR to determine whether the proposed change modifies design criteria set forth in the PSAR, which may require an amendment to the construction permit.

Please call me at (301) 492-7272 if you have any questions.
