Subject: NOTES

Jeff,

The attached are slides which go with a paper we are developing inhouse right now and was discussed at an NEI/NRC PRA steering committee meeting last week. I have sent a set to Gary Welch at INPO for the meeting on Thursady. I understand you will not be attending so here is a set for you. We are in a development stage and will be meeting to compare notes with NEI tomorrow May 7,2002. Our effort is to get as many smart people helping with input as possible before anyone starts arguing positions. The best answer even if not the final one will come out of such discussions. I would appreciate any feedback on the attached you might want to share as we collectively move forward.
