MEMORANDUM TO: Charles A. Casto, Acting Director  
 Division of Engineering  
 Office of Nuclear Reactor Regulation

FROM: Michael E Mayfield, Director /RA/  
 Division of Engineering Technology  
 Office of Nuclear Regulatory Research

SUBJECT: EQ PROGRAMMATIC REVIEW REPORT: INTER-AGENCY  
 TEAM'S REPORT

Some time ago, I recommended that the "EQ Programmatic Draft Report" be reviewed and dispositioned as a part of technical assessment of GSI-168, "Environmental Qualification of Low-voltage I&C cables." Subsequently, an intra-agency (NRR & RES) team was formed to review the EQ Programmatic Draft Report and to document its findings. Attached is the team's final report, "Disposition of EQ Programmatic Review Recommendations."

The team's findings were addressed, as appropriate, in the technical assessment of GSI-168. Should you need additional information on this subject, please contact Satish Aggarwal of my staff (301-415-6005).

A copy of this memo and its attachment are being placed in ADAMS (Publicly Available).

Attachment: as stated
