**Subject:** Proposed Rule: Disposal of High-Level Radioactive Wastes in a Proposed  
Geologic Repository at Yucca Mt.

'99 JUL -6 A7:49

RULE  
ADJUDICATED

Honorable Secretary:

Although I live across the country in New England, I am very much concerned at what is taking place in the state of Nevada. The public needs MORE protection from radioactive contamination at this critical time in global history, not less. Hurrying a process for the sake of convenience is not worth the high price down the line in terms of degradation of the land at Yucca Mountain or elsewhere in our country! Too many water supplies have already been contaminated!!! Once they are lost, they are lost forever. Water quality must be protected. Thank you for withdrawing your proposed repository licensing rule regarding the Yucca Mountain territory.

Sincerely,

Carol Harley
