Docket No. 50-298

SEP 17 1976

Nebraska Public Power District
ATTN: Mr. J. M. Pilant, Director
Licensing and Quality Assurance
Post Office Box 499
Columbus, Nebraska 68601

Gentlemen:

On June 28, 1976, the Commission issued Amendment 29 to Facility Operating License No. DPR-46 for the Cooper Nuclear Station.

This amendment inadvertently transmitted the Technical Specification pages for Table 3.6.1 with an incorrect table heading. Please change the heading for Table 3.6.1 on Technical Specification pages 137c through 137i from "Safety Related Hydraulic Snubbers" to "Safety Related Shock Suppressors (Snubbers)". This change will make the table heading compatible with the remaining specifications for shock suppressors.

Sincerely,

Original signed by
Dennis L. Ziemann
