Post Office Box 499

License No.: DPR-46

Gentlemen:

Your letter of July 3, 1975, requested two changes to the Radiological Technical Specifications concerning Section 3.10, Core Alterations, and various other changes to correct instrument numbers to match "as-built" wiring diagrams and typographical errors. Insufficient safety analysis was included with your letter to support the requested change to section 3.10.A.2 on page 203 of the Technical Specifications; and, therefore, this change cannot be approved until this analysis is provided. The other requested changes are presently under review.

Sincerely,

Original Signed by:
Dennis L. Ziemann
