

May 13, 2002

Mr. M. Warner  
Site Vice President  
Kewaunee and Point Beach Nuclear Plants  
Nuclear Management Company, LLC  
6610 Nuclear Road  
Two Rivers, WI 54241

Dear Mr. Warner:

In response to a telephone conversation that I had with Mr. Chuck Sizemore, Training Supervisor, on May 6, 2002, we have tentatively rescheduled an initial licensing examination for your operator license applicants at the Point Beach Nuclear Plant during the week of September 29, 2003. Validation of the examination will occur at the station during the week of August 25, 2003. In the unlikely event that we are unable to support the examination during the scheduled week, we will inform you immediately upon discovery of such conditions and make arrangements to administer the examination at a mutually acceptable date.

As stated in your letter dated September 27, 2001, your staff will develop the examination. To support the examination administration date, we have tentatively scheduled the date of August 11, 2003, to begin our review of your submitted examination.

Please also inform us at your earliest opportunity if you discover you are unable to support the examination on the scheduled dates.

**Once your staff has determined a schedule for examination development, please have them contact the Chief Examiner to arrange for a suitable examination outline submittal date for NRC review. The intent is for the examination outline to be submitted early in the examination development process. This is to preclude the need to make significant changes to developed examination material as a result of the NRC review of the outline.** Mr. Michael E. Bielby has been tentatively assigned as the Chief Examiner and can be reached at 630-829-9762.

A supplementary letter will be sent to the training department approximately 120 days prior to the examination outlining examination security expectations, listing the materials required by the NRC to conduct the examination, reconfirming the examination dates, and reconfirming the number of candidates you have in the training program. If you have any questions concerning this information, please contact Dell R. McNeil of my staff at 630-829-9737.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Sincerely,

**/RA/**
