Subject: Participation on U.S. Nuclear Regulatory Commission (NRC) Yucca Mountain
Corrective Action Evaluation Team (Intermediate Milestone 20.1402.331.215)

Dear Mr. Carter:

This correspondence is to document that from February 25 - March 1, 2002, the CNWRA provided a Quality Assurance (QA) specialist to participate on the U.S. NRC Yucca Mountain Corrective Action Evaluation Team (identified as Intermediate Milestone 20.01402.331.215). The work included attendance in NRC/Department of Energy/Bechtel/SAIC meetings to determine the effectiveness of the Yucca Mountain Corrective Action program to date and providing written input to the NRC Team Lead. This support was provided to the NRC on a short notice basis and there has been direction that no other written input is required from the CNWRA QA specialist.

These NRC observations and evaluations of DOE audits and actions are to ensure that the DOE audits are accomplished in an effective and adequate manner, the DOE quality assurance program has been satisfactorily implemented in the areas being evaluated, and the technical discipline activities are adequately observed.

If you have questions regarding this report, please contact me at (210) 522-5149. Your cooperation in this matter is appreciated.

Sincerely,

Bruce Mabrito
Director of Quality Assurance
