

March 10, 1988

Docket No. 50-298

Mr. George A. Trevors, Division
Manager - Nuclear Support
Nebraska Public Power District
Post Office Box 499
Columbus, Nebraska 68601

Dear Mr. Trevors:

SUBJECT: DELETION OF PAGE 95a TO COOPER NUCLEAR STATION
TECHNICAL SPECIFICATIONS (TAC NO. 66888)

On February 23, 1988 the staff issued Amendment No. 117 to Facility Operating License No. DPR-46. In that amendment all text on Page 95a of the Technical Specifications was relocated to Page 95. However, due to an oversight, the Attachment to the Amendment did not specify that holders of the Technical Specifications should remove Page 95a. This oversight was brought to our attention by M. Boyce of your staff on March 7, 1988.

This letter clarifies that Page 95a of the Cooper Nuclear Station Technical Specifications is deleted effective February 23, 1988. Holders of copies of the Technical Specifications may remove that page.

If you have any questions please contact me at 301-492-1336.

Sincerely,

Original signed by

William O. Long, Project Manager
Project Directorate - IV
Division of Reactor Projects - III,
IV, V and Special Projects
