**SUBJECT: ST. LUCIE NUCLEAR PLANT - SENIOR REACTOR OPERATOR RETAKE
EXAMINATION REPORT 50-335/02-301 AND 50-389/02-301**

Dear Mr. Stall:

On April 22, 2002, the NRC authorized your staff to administer two Senior Reactor Operator (SRO) retake written examinations to employees of your company who had applied for licenses to operate the St. Lucie Nuclear Plant, Units 1 and 2. The NRC waived the operating examination for the SRO applicants. At the conclusion of the examination, the examiner discussed the examination questions and preliminary findings with those members of your staff identified in the enclosed report.

The two SRO applicants passed the initial retake written examination, representing a 100 percent pass rate.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
