MEMORANDUM TO: Richard J. Laufer, Chief, Section 1
Project Directorate I
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

FROM: Robert Clark, Project Manager, Section 1 /RA/
Project Directorate I
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

SUBJECT: ROCHESTER GAS & ELECTRIC CORPORATION (RG&E) LICENSE
AMENDMENT PRE-APPLICATION MEETING RE: FUTURE
MODIFICATIONS TO THE CONTROL ROOM VENTILATION SYSTEM
(TAC NO. MB1945)

Pursuant to RG&E's request (see RG&E's letter dated May 14, 2001, ADAMS Accession No. ML011420101), TAC No. MB1945 was opened in anticipation that a meeting would be held between RG&E and the Nuclear Regulatory Commission staff to discuss future modifications to the control room ventilation system (CRVS) at the R.E. Ginna Nuclear Power Plant. This TAC number is over 1 year old and RG&E has not acted on this pre-application request. A conference call was held between RG&E and the staff on May 17, 2002. Mark Flaherty, RG&E licensing manager, stated that a pre-application meeting would not be necessary because RG&E plans to formally submit, in the near future, a license amendment request to revise Ginna Improved Technical Specifications associated with the CRVS. Therefore, TAC No. MB1945 is closed.

Docket No. 50-244
