

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

February 1, 1985

Docket No. 50-416

Mr. J. B. Richard  
Senior Vice President, Nuclear  
Mississippi Power & Light Company  
P.O. Box 23054  
Jackson, Mississippi 39205

Dear Mr. Richard:

Subject: Issuance of Amendment No. 1 to Facility Operating  
License NPF-29 Grand Gulf Nuclear Station, Unit No. 1

The Nuclear Regulatory Commission has Issued Amendment No. 1 to Facility Operating License NPF-29 for the Grand Gulf Nuclear Station, Unit No. 1, located in Claiborne County, Mississippi. This amendment is in response to your letter dated October 9, 1984.

The amendment modifies the Technical Specifications to implement a change of position title in the offsite organization for management of the facility. The amendment is effective as of its date of issuance.

A copy of the related safety evaluation supporting Amendment No. 1 to Facility Operating License NPF-29 is enclosed.

Sincerely,

*ARL Hood*  
Elinor G. Adensam, Chief  
Licensing Branch No. 4  
Division of Licensing

DOCKET NO. 50-416

GRAND GULF NUCLEAR STATION, UNIT 1

AMENDMENT TO FACILITY OPERATING LICENSE

Amendment No. 1  
License No. NPF-29

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The application for amendment to the Grand Gulf Nuclear Station, Unit 1 (the facility) Facility Operating License No. NPF-29 filed by the Mississippi Power and Light Company acting for itself, Middle South Energy, Inc., and South Mississippi Electric Power Association (the licensees), dated October 9, 1984, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations as set forth in 10 CFR Chapter I;
  - B. The facility will operate in conformity with the application, as amended, the provisions of the Act, and the regulations of the Commission;
  - C. There is reasonable assurance: (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the Commission's regulations set forth in 10 CFR Chapter I;
  - D. The issuance of this license amendment will not be inimical to the common defense and security or to the health and safety of the public;
  - E. The issuance of this license amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.
2. Accordingly, the license is hereby amended by page change to the Technical Specifications as indicated in the attachment to this license amendment and paragraph 2.C(2) of Facility Operating License No. NPF-29 is hereby amended to read as follows:

B502120006 B50201  
PDR ADDCK 05000416  
P PDR

(2) Technical Specifications

The Technical Specifications contained in Appendix A, as revised through Amendment No. 1 and the Environmental Protection Plan contained in Appendix B are hereby incorporated into this license. Mississippi Power & Light Company shall operate the facility in accordance with the Technical Specifications and the Environmental Protection Plan.

3. This license amendment is effective as of its date of issuance.

SOUTH MISSISSIPPI ELECTRIC POWER ASSOCIATION

INTRODUCTION

By letter dated October 9, 1984, the licensee proposed to change the facility Technical Specifications to implement a change of position title in the offsite organization for management of the facility. The staff's evaluation of this proposed change is presented herein.

EVALUATION

The proposed amendment would revise Figure 6.2.1-1 "Offsite Organization" in the Technical Specifications by changing a position title from "Vice President - Nuclear Support" to "Director - Nuclear Support". The person occupying this position is responsible for nuclear fuel, offsite nuclear service and support, and radiological and environmental matters including radiochemistry service and support. The person in this position reports to the Senior Vice President - Nuclear. The change would not affect the responsibilities or reporting requirements of this position, but would be a change in title only. The licensee requested the change because the responsibilities and qualifications of this position are equivalent to those of other directors in the department rather than those of vice presidents.

The staff has reviewed the proposed change and concludes that it is acceptable because it is a change in position title only.

ENVIRONMENTAL CONSIDERATION

The amendment involves a change in administrative procedures or requirements. Accordingly, the amendment meets the eligibility criteria for categorical exclusion set forth in 10 CFR Section 51.22(c)(10). Pursuant to 10 CFR 51.22(b) no environmental impact statement or environmental assessment need be prepared in connection with the issuance of the amendment.

PDR ADOCK 05000416  
P PDR

CONCLUSION

The Commission made a proposed determination that the amendment involves no significant hazards consideration which was published in the Federal Register (49 FR 45955) on November 21, 1984, and consulted with the state of Mississippi. No public comments were received, and the state of Mississippi did not have any comments.

We have concluded, based on the considerations discussed above, that: (1) there is reasonable assurance that the health and safety of the public will not be endangered by operation in the proposed manner, and (2) such activities will be conducted in compliance with the Commission's regulations, and issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public.
