

EDIC:IC

FEB 26 1959

Mr. S. P. Glaser
 Assistant Executive Director
 Florida Development Commission
 Caldwell Building
 Tallahassee, Florida

Dear Mr. Glaser:

We have arranged to have our Division of Licensing & Regulation reply to your letter of February 5, 1959, regarding a review of your proposed reactor sites.

The Hazards Evaluation Branch of that Division makes evaluations of proposed reactor sites with respect to health and safety considerations. Incidentally, Dr. Beck, whom you mentioned in your letter, is Chief of the Hazards Evaluation Branch.

Sincerely yours,

Original Signed by
 A. T. Vander Weyden

FLORIDA DEVELOPMENT COMMISSION
Caldwell Building - Tallahassee

February 5, 1959

Dr. Frank K. Pittman, Director
Office of Reactor Development
United States Atomic Energy Commission
Washington 25, D. C.

Dear Dr. Pittman:

I appreciate the attention your office gave my recent inquiries concerning commercial interest in your irradiation services invitation.

As you know, this Commission is in contact with several groups interested in a commercial test reactor and is actively working with them on developing site information. At this time, we have several alternative sites under consideration but have, we believe, narrowed the choice to two.

In recent conversations with representatives of private utilities here in the State, it came to my attention that two AEC personnel, Dr. C. K. Beck and Mr. John Atwood, had visited the State to advise the Florida West Coast Nuclear Group on a proposed site for their power reactor. We are very desirous of having a similar review of the sites we are considering and will appreciate hearing from you concerning the possibility, and procedures to follow, of obtaining this favor.

Sincerely,

/s/

S. P. Ginder
Assistant Executive Director
