April 29, 2002

Dr. William D. Travers
Executive Director for Operations
United States Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Mr. Travers

I am a concerned citizen in Ohio who would like to see the Davis Besse plant shut down permanently. I would be willing to pay higher electric rates for safer and more economic ways to provide simple means of living for our family, without the hazards and pollution created by this means of electricity.

As with the threat of terrorist, unsafe regulation, pollution, and many more reasons I would like for you to look into better means of providing electricity for our people. (solar is my favorite) I am very concerned for my children and grandchildren to be. Please let me know if you will be working towards a safer more efficient means of electricity, and what your plans are for shutting down the Davis Besse Nuclear Plant.

Sincerely,

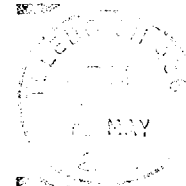

Mrs. Debbie Drew
