ALBERT E. HEUSTIS, M.D., M.P.H.
COMMISSIONER

June 5, 1959

Mr. Harold L. Price, Director
Division of Licensing and Regulation
U. S. Atomic Energy Commission
Washington 25,, D. C.

Dear Mr. Price:

We have reviewed Title 10 - Chapter I "Notice of Proposed Rule Making" with reference to site evaluation for power and test reactors.

The factors as stated in the proposed regulations are general in character and are apparently intended to be instructional rather than regulatory. We would like to mention the possibility that even though the Atomic Energy Commission would approve of a specific site for a reactor facility, it would be good practice to also clear this site with the state in which the reactor will be located. There could be a possibility that a state may not approve of the site and initiate injunctive proceedings.

Sincerely yours,

Albert E. Heustis, M. D.
Commissioner
