OKLAHOMA STATE UNIVERSITY
RESEARCH FOUNDATION
STILLWATER

OFFICE OF THE DIRECTOR

June 24, 1959

U. S. Atomic Energy Commission
Washington 25, D. C.

Attention: Division of Licensing and Regulation

Gentlemen:

It is suggested that proposed changes in 10CFR Chapter 1, Power and Test Reactors, show specifically the status of reactors such as the AGN-201, Zero Power (100 MW) Training Reactor. It is requested further that regulations concerning this type of reactor not be so stringent as to preclude their use on university campuses without undue isolation. For maximum effectiveness as training reactors, they must be close to the places where the students take their other courses.

Sincerely yours,

Marvin T. Edmison
Marvin T. Edmison
Director
