Dr. M. C. Leverett  
Chairman Standards Committee  
American Nuclear Society  
86 East Randolph Street  
Chicago 1, Illinois

Dear Dr. Leverett:

Thank you for your letter of June 16 concerning our Proposed Rule Making entitled "Factors Considered in Site Evaluation for Power and Test Reactors."

Your request for extending the time for return of comments by 90 days was received after the Commission had already extended this time to August 24, 1959. I trust that this extension from a 30 day period to a 90 day period will give you and the Standards Committee sufficient time to study and formulate comments on this important matter.

Sincerely,  
SIGNED
