November 3, 1960

MEMORANDUM FOR HAROLD L. PRICE:

This will confirm the information I gave you today at the downtown offices of the Commission in regard to AEC-R 2/16, dated October 28, 1960, subject "Reactor Site Criteria."

Commissioner Wilson asked me to inform you that the suggestion by the ACRS in the last paragraph on pages 5 and 6 sounds good and that he concurs with the ACRS approach in this regard. He further suggested that such a paper should be gone over carefully before publication, including with the ACRS.
