OFFICE OF THE BUSINESS MANAGER

August 3, 1959

Mr. H. L. Price, Director  
Division of Licensing and Regulation  
U. S. Atomic Energy Commission  
Washington 25, D. C.

Dear Mr. Price:

The experience that Armour Research Foundation has had with installation and operation of a reactor has been limited to a relatively small research reactor. For this reason, we do not feel justified in commenting in detail on the Commission's proposed rule-making concerning site evaluation for power and test reactors.

We have, however, reviewed generally the criteria set forth and find them sensible and reasonable. The Commission is to be commended for its efforts to establish methods for site evaluation.

Very truly yours,
