TITLE 10-ATOMIC ENERGY

Chapter 1-Atomic Energy
Commission

PART 70-SPECIAL NUCLEAR MATERIAL

Notice of Rule Making

(Published in the Federal Register on December 13, 1960)

The following amendment prescribes a standard transfer and receipting form to be used by persons holding licenses issued pursuant to the regulations in Part 70, Chapter 1, Title 10, Code of Federal Regulations, in initiating and receipting shipments of special nuclear material.

Notice of proposed issuance of the amendment was published in the Federal Register on August 17, 1960, (25 F. R. 7890), and a period of 60 days was allowed for receipt of comments by interested persons. The comments filed have been given careful consideration.

The provisions of the new section 70.54 are unchanged from those which appeared in the notice of proposed rule making. However, slight changes have been made in the Form AEC-388, and in the accompanying instructions, as follows:

1. On the face of the Form AEC-388 the parenthetical instruction "(FOR AEC USE ONLY)" has been deleted from Item 5.
2. On the face of Form AEC-388 Item 11 has been changed to read: "The items and quantities listed above were shipped on".
3. On the face of Form AEC-388 Item 12 has been changed to read: "The items and quantities listed above were received on".

4. In the instructions appearing on the reverse side of Form AEC-388 the "Note" at the bottom of the page is designated "Note No. 1", and a "Note No. 2" is added, reading: "Licensees are not required to report transfers of special nuclear material to another licensee or to the Commission, for disposal, if the material is contained in waste and if the material has been declared to the Commission as 'consumed' by a licensee. Licensees are required to report all other transfers of special nuclear material, even though the Commission may have been paid the full value therefor. In such cases the following statement should be inserted in Item 8: 'Full value paid to AEC'."
5. Instruction 5 has been changed to read: "Enter name, address, license number, and lease number of the organization assuming lease responsibility for the material; also the applicable order (Form AEC-640) number, if available."

Copies of Form AEC-388 referred to in the amendment will be furnished upon request made to AEC Material Leasing Officer, U. S. Atomic Energy Commission, Oak Ridge, Tennessee.

Notice is hereby given that the following amendment to 10 CFR Part 70 is published as a document subject to codification and is effective 30 days after publication in the Federal Register:

1. Redesignate Sections 70.54 and 70.55 as 70.55 and 70.56, respectively.

2. Add the following new section 70.54:

Sec. 70.54 Material Transfer Reports. Each licensee who transfers and each licensee who receives special nuclear material shall submit to the Commission on Form AEC-388, in accordance with the instructions set out therein, reports concerning each transfer of special nuclear material which has been distributed by the Commission pursuant to Section 53 of the Act. Such reports shall be transmitted to the Commission promptly after the transfer takes place.

Dated at Germantown, Maryland, this 2nd day of December
1960.
