Dear Ms. Semerena:

We have updated Nebraska's State Regulation Status Data Sheet, RATS ID 1999-1, to show "not required." This change will take a few weeks to be reflected on the Office of State and Tribal Programs web site. If you have further questions regarding this issue or if you would like to discuss the status of Nebraska's regulations prior to your Integrated Materials Performance Evaluation Program review, please feel free to contact Mr. John Zabko of my staff at (301) 415 -2308 or JGZ@NRC.GOV.

Sincerely,

/RA/
