Dear Ms. Reed:

Pursuant to the Freedom of Information Act 5 USC § 552 *et. seq.*, I respectfully request copies of the following documents from the NRC:

1. The entire file, including any and all documents, notes, correspondence, and/or other written and/or electronic means of communications, including but not limited to, permits, e-mails, reports, internal notes and memoranda, test results, survey data, and staff reports, relating to the **Gammacell 220** irradiator, manufactured by Nordion International, Inc. (formerly Atomic Energy of Canada, Ltd.), Kanata, Ontario, Canada.
2. I am not requesting copies of NRC licenses, where the licensee possesses a Gammacell 220. However, I am interested in any NRC correspondence with licensees that specifically addresses the design or operation of the Gammacell 220.

I am willing to pay any reasonable fees and expenses associated with conducting the search for the information and records. Should any part of this request be denied, please cite each specific exemption you think justifies your refusal to release the information and notify me of appeal procedures available under the Act.

Pursuant to the FOIA, I ask that you respond to this request within ten (10) days. Thank you in advance for your time and consideration, and please call me at the above number if you should have any questions. My email address is [REDACTED]

Very truly yours,

Joel I Cehn
