Dear Mr. Deddens:

SUBJECT: CORRECTION TO AMENDMENT NO. 61 TO FACILITY OPERATING LICENSE NO.
 NPF-47 (TAC NO. M77577)

On November 6, 1991, the Commission issued Amendment No. 61 to Facility Operating License No. NPF-47 consisting of changes to the River Bend Station, Unit 1 Technical Specifications (TSs) by revising TS 6.5.1, "Facility Review Committee," and 6.5.3, "Nuclear Review Board," by deleting the specific composition list for each and replacing it with general statements defining the number of members and the level of expertise for membership.

Due to an administrative error, paragraph (2) on page 2 of the license amendment did not contain the most current amendment number. The corrected page is enclosed and we apologize for any inconvenience this error may have caused you.

Sincerely,

Original Signed By
