SUBJECT: Naval Radiation Safety Committee Actions, May CY 2002

In a letter dated April 17, 2000, Nuclear Regulatory Commission Region II requested that the Naval Radiation Safety Committee (NRSC) suspend the practice of submitting copies of NRSC approved permitting actions and inspection reports. Instead, Region II requested to be provided a summary each month outlining Naval Radioactive Materials Permit actions approved by the NRSC.

This letter forwards the summary of NRSC approved actions for May 2002. If you have any questions regarding this letter, please contact LT Greg Kahles at (703) 602-2582.

Sincerely,

A handwritten signature in cursive script, appearing to read "D. E. Farrand".
