"SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

C.1 BACKGROUND

The Graphics Section of the U.S. Nuclear Regulatory Commission (NRC) uses both computer software packages and traditional illustration techniques to generate a wide range of graphics products for NRC staff who are located mainly at its headquarters in Rockville, MD, as well as in its four regional offices. The Graphics Section supports a number of software packages for graphic applications that import and generate charts, graphs, technical illustrations, tables, and materials for a variety of visual media (view graphs, 35mm slides, color prints, etc). The Graphics Section also provides visual standards, consultation, visual enhancement, imaging and scanning for specific agency requirements.

In addition to daily work requirements of varying complexity, the trend towards dissemination of information to the public via the Internet has given rise to requests from some offices for design of Home Pages for the World Wide Web. With the rapid evolution of computer graphics into multimedia, the Graphics Section anticipates a growing demand for products using this technology.

C.2 CONTRACT OBJECTIVE

The Contractor shall provide graphic services to support the Graphics Section of the NRC. These products will be defined in work orders to be issued by the NRC Project Officer and/or technical monitor. The services will consist of tasks for graphics services, support for web design, support for quarterly newsletters, and support for annual and semi-annual publications. Delivery Dates for each product will be coordinated with the NRC Project Officer and/or technical monitor and may range from three (3) days to 3 weeks. All products shall conform to the requirements of the agency standards listed in this statement of work.

C.3 SCOPE OF WORK

The Contractor shall provide graphic services as required by the Graphics Section which includes: publication layout and design; design of brochures, pamphlets, posters, flyers, binders, exhibits, displays, presentation art, illustrations, charts, multimedia imaging and image scanning, and web design.

C.3.1 The Contractor shall ensure that all personnel assigned to work on this contract are qualified to perform the tasks outlined in this SOW. The Contractor's staff shall be properly trained to provide timely, accurate, complete, and courteous responses to all graphic requests.

C.3.1.1 The NRC Project Officer and/or technical monitor will provide individual work orders, with the appropriate technical direction, for the specific graphic services to be completed. The technical direction will include the type of work that is required (e.g., charts and graphs) a brief description of the project, an indication of how the final product will be used, and a specific deadline for completion.

C.3.1.2 All work completed by the Contractor shall be clean, neat, visually pleasing to the eye, accurate, and meet the deadline established by the NRC Project Officer or technical monitor. All completed projects shall require no more than two revisions by the NRC Project Officer and/or the technical monitor. These revisions will not be considered in Section C.3.10 related to unsatisfactory performance. Any revisions that exceed this amount will be considered as an unacceptable deliverable under that section.

C.3.1.3 If the Contractor cannot meet the deadline established by the NRC Project Officer and/or technical monitor, the contractor shall notify the Project Officer or the technical monitor, at least one (1) work day prior to the deadline.

C.3.1.4 The Contractor shall provide the following types of graphic services with associated delivery dates:
