Contract No. NRC-26-00-307 Modification No. 15 Page 2 of 4

The purpose of this modification is to allow Getronics Government Solutions, LLP, to provide the NRC with a replacement teleconferencing system, to include installation, system documentation, a one-year warranty, and training for nine (9) NRC personnel. As a result, the ceiling amount of Option Year 1 is increased by \$200,243.09 from \$604,689.41 to \$804,932.50 and the ceiling amount of the contract (Base Year and Option Year 1) is increased by \$200,243.09 from \$1,221,048.25 to \$1,421,291.34. The obligated amount of the contract is increased by \$200,000.00 from \$975,645.40 to \$1,175,645.40.

In addition, this modification provides for the incorporation of a one-year maintenance period for the teleconferencing system under Option Year 2, 3, and 4, which shall be exercised at the option of the Government at the price reflected in the Schedule.

By virtue of this modification, the contractor is hereby notified that:

- (1) the Project Manager identified under Paragraph H.5 <u>Key Personnel</u>, of the subject contract, does not require an "L" security clearance as previously reflected under Modification No. 9; and
- (2) the NRC is hereby incorporating under this contract Paragraph H.25 entitled "Contractor Use of NRC-Furnished Information Technology Equipment".

Accordingly, the following changes are hereby made:

1. Under Paragraph C.1 - <u>Statement of Work for Operations Center Information Management System (OCIMS)</u>, is hereby amended to allow the contractor to provide the NRC with a teleconferencing system, to include installation, documentation, a one-year warranty, and training, as reflected in its January 30, 2002, technical proposal and subsequent amendments. In addition, this modification incorporates an optional requirement for a one-year maintenance period for the teleconferencing system under Option Year 2, 3, and 4 of the contract. Should the NRC exercise the optional requirement for maintenance services, the contractor will be notified by the NRC Contracting Officer, in writing, within 30-days of the expiration date of the current maintenance period.

The warranty period for the teleconferencing system begins upon acceptance of the system by the NRC Project Officer. The maintenance period incorporated under Option Year 2, if exercised by the Government, will begin one-year from the date of expiration of the warranty period.
