Docket No. 50-323, OL-DPR-82
Supplemental Answers to NRC Order for Interim Safeguards and Security
Compensatory Measures

Dear Mr. Collins:

This letter is in response to the U.S. Nuclear Regulatory Commission (NRC) letter dated February 25, 2002, containing a security Order to Pacific Gas and Electric Company (PG&E) that modifies the current operating licenses for Diablo Canyon Power Plant (DCPP), Units 1 and 2. The Order was immediately effective and requires compliance with specific interim safeguards and security compensatory measures as stated in attachment 2 to the Order.

PG&E responded to the Order in DCL-02-028 dated March 18, 2002, and DCL-02-055 dated May 1, 2002. In DCL-02-029, dated March 18, 2002, PG&E requested an extension until May 31, 2002 to supplement the answer to the Order for Interim Compensatory Measures (ICM) B.2.a(1), B.2.a(2), and B.2.b. On May 16, 2002, the NRC granted PG&E's request for an extension in time to answer these ICMs.

The enclosure to this letter contains the supplemental answers to ICM B.2.a(1), B.2.a(2), and B.2.b, completing PG&E's answer to the Order. PG&E will submit a final response to the Order upon completion of implementation activities.
