LETTER TO JCAE RE SITE CRITERIA

The attached letter from the Chairman to the Joint Committee would transmit copies of correspondence between the AEC and the ACRS on the development of site criteria and a copy of the report of the Ad Hoc Committee appointed about a year ago to make recommendations relating to the development of reactor safety criteria including site criteria.

As long as the promulgation of proposed site criteria by the Commission was still pending, these documents were not sent to the Joint Committee or to the Public Document Room. Now that the proposed site criteria have been published by the Commission I believe that the Commission should consider sending these documents to the Joint Committee. There are some pros and cons in doing this which I would like to discuss with you.

Encl.  
 Ltr to JCAE w/encls.
