

U. S. GOVERNMENT PRINTING OFFICE 16-62761-3

Dear Senator Anderson:

Under date of February 8, 1961 we sent to the Joint Committee copies of proposed reactor site criteria which have been issued by the Commission for public comment. These criteria were filed with the Federal Register on February 10 and published on February 11, 1961.

In the development of these criteria the Commission received valuable advice and assistance from the Advisory Committee on Reactor Safeguards, and from an Ad Hoc Committee appointed in January of 1960 to develop recommendations for a plan of action to deal with the general problem of reactor safety studies and research including the development of criteria relating to the safety and location of reactors.

Enclosed for your information are the report of the Ad Hoc Committee and correspondence with the Advisory Committee on Reactor Safeguards relevant to the site criteria which have emerged as a result of intensive study during the past year.

Sincerely yours,

Chairman

Honorable Clinton F. Anderson  
Chairman, Joint Committee  
on Atomic Energy  
Congress of the United States

Enclosures:

1. Ad Hoc Cmte Rpt - 9/29/60 (already in file) (In staff paper AEC-R 2/21)
