Document_Title: NUREG 1556 Vol. 9

Comments: On page 8-51, in section 8.23, Item 10: Occupational Dose, there is no reference to the NRC Regulatory Issue Summary 2002-06, released April 16, 2002. The RIS is also not referenced in Appendix A.

There could be some discussion providing specific guidance for licensees who receive occupational exposures from medical x-ray radiation, while wearing protective apparel; perhaps a short discussion should be included on how the licensee should apply this RIS.
