Gentlemen:

**DOMINION NUCLEAR CONNECTICUT, INC.**  
**MILLSTONE NUCLEAR POWER STATION UNIT 1**  
**ANSWER TO ORDER FOR INTERIM SAFEGUARDS AND**  
**SECURITY COMPENSATORY MEASURES DATED MAY 23, 2002**

On May 23, 2002, the Nuclear Regulatory Commission (NRC) issued an Order for Interim Safeguards and Security Compensatory Measures to all decommissioning nuclear power plants with spent fuel in the spent fuel pool. The Order stated that following the events of September 11, 2001, the NRC took a number of actions, including commencement of a comprehensive review of its safeguards and security programs and requirements. The Commission stated that the actions in the Order are interim measures, and identified as the basis of the Order the need for licensees to take prudent actions to address security requirements in the present generalized high-level threat environment. The Order required that licensees immediately start implementation of the requirements of the Order, respond to specific actions within twenty (20) days of the date of the Order, and complete implementation of requirements identified in the Order by November 22, 2002.

In accordance with Section IV of the Order and 10 CFR 2.202, Dominion Nuclear Connecticut, Inc. (DNC) hereby submits its answer to the Order. Attachment 1 to this letter summarizes the commitments made in the response to the Order. Attachment 2 to this letter provides a response to each of the items stated in Attachment 2 to the Order. DNC consents to the Order as described in Attachments 1 and 2, and does not request a hearing.

**ATTACHMENTS 1 AND 2 CONTAIN SAFEGUARDS INFORMATION.

As contained in Attachment 2, DNC has taken or is taking appropriate steps to implement Interim Compensatory Measures (ICMs) B.1.a., B.1.b., B.2.a., B.2.b., B.3.a., B.3.b., and B.3.c. As also discussed in Attachment 2, DNC must complete an evaluation to enable a comprehensive response to ICM B.1.b., determine what actions are appropriate, and establish a schedule for implementation. DNC will provide additional information for ICM B.1.b. within 20 days after completion of the evaluation.

Attachments 1 and 2 to this letter contain Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended.

If you have any questions, please contact us.

Very truly yours,

J. Alan Price  
Site Vice President – Millstone
