

June 20, 2002

Mr. David Allard, CHP
Director
Bureau of Radiation Protection
Rachel Carson State Office Building
P.O. Box 8469
Harrisburg, PA 17105-8469

SUBJECT: DRAFT ENVIRONMENTAL ASSESSMENT AND SAFETY EVALUATION REPORT FOR THE CABOT-READING SITE

Dear Mr. Allard:

Please find attached the draft Environmental Assessment (EA) and Safety Evaluation Report (SER) for the Cabot Reading Site. In the draft EA and SER, NRC finds the Cabot Reading site acceptable for removal from SDMP and unrestricted release with no further remediation necessary. As we discussed in our June 14, 2002 telephone conversation, we are requesting your comments within 30 days.

The NRC committed to identifying what reviews the Commonwealth would need to conduct with respect to historic resources and endangered species. After completing the draft EA, we have concluded that these reviews can be completed by the NRC, and separate reviews by other State agencies should not be necessary.

I greatly appreciate your timeliness in completing this review, and look forward to receiving your comments. If you have any questions regarding this letter, please contact me at (301) 415-7855 or you may speak to Rebecca Tadesse at (301) 415-6221.

Sincerely,

/RA/

Larry Camper, Chief
Decommissioning Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards
