Dear Privacy Officer:

Under the relevant federal public information laws, I am requesting the following documents and information:

1. Copies of complete "event" reports for all radioactive materials lost or missing in California in 2000, 2001 and 2002 to date.
2. If the reports listed above do not include this information, I'm also requesting the quantity of radioactive material involved, in curies, for each event.
3. Again, if not included in the above material, I'd also like any documents detailing the final outcome of each event, and the circumstances under which the material was recovered, if it was.
4. A copy of the blank form(s) that handlers of radioactive materials use to report thefts and losses. If no form exists, a copy of the federal guidelines that detail what information must be included in each event report.

Thank you so much for you help.

Sincerely,
