April 30, 2002

Dear Dr. William D. Travers,

We are writing this letter to you the Executive Director for Operations, United States Nuclear Regulatory Commission in response to a visit received from a member of the Ohio Citizen Action organization.

It is the goal of the Ohio Citizen Action group to keep the David Besse Plant in Marblehead, Ohio shut down permanently. It is also our desire to maintain the safety of our neighborhood. A neighborhood free of nuclear waste, free from nuclear leaks, and free of prime targets for terrorists.

We currently live approximately an hour from Davis Besse and work 30 minutes away. The Plant has served it's time and place. It is now time to let it rest. A combination of power from the competitive market and energy efficiency measures can easily meet power needs.

The only way to guarantee Northern Ohio's safety is to shut the plant down permanently.

Sincerely,

Robert and Susan Wright

Dear,  
Dr. William B. Davis, I am a  
concerned mother and home owner  
in Washington local school district,  
and am concerned about the Davis  
Brown power plant not being safe  
for our environment, and I would  
hope that you will keep it closed  
so that our environment will  
be safe for our children.

Thank You  
Dawn Brown

P.S  
Please write to  
me to let me  
know what your  
intentions are to  
keep the Davis  
Brown plant from  
harming our environment.

Dr. William D. Travers

This is in concern with the Davis Besse Plant shut it down, not only is there a hole in it but it was found 5 years ago not to worry was the plants reactions; it will hold, well how long was you going to wait?

Then there was the seven people that walked out with radiation on them and went home to their families. If we keep having slip up or put-offs, what are we going to call it when we do, have a melt down oops!

And what are we going to do with all nuclear waste barrels upon barrels, Make us a fence around Ohio I always thought it was crazy to make something dangerous and then still have to get rid of the waste

Which is more dangerous.

Please consider what we  
are trying to say we care  
about our town our state  
our United States, please let's  
fight something that is worth  
fighting about, our safety  
of freedom of religion, Citizen  
ship and government

God Bless  
And Keep us Safe.

Dr. D. Williams Traverso April 30, 02

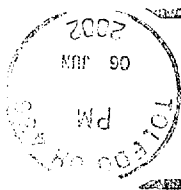

I would like to address  
this letter to you about  
the Dave Besse plant. I  
live in Huron, Ohio and  
would like the plant to be  
closed because, I just had  
a baby and I want her to have  
a future and not have to worry  
about a nuclear melt down.  
So please shut the plant  
down. I understand there  
will be alot of people without  
jobs, but the number would  
be tripled if a nuclear melt  
down happened. Thank you for your  
time. Please write me back.

I ASK FOR A Return Response.

4-29-2002

DEAR EXC. OF OPERATIONS,

Please keep the Davis Besse plant POWD  
permanently! I live in the Toledo Area ASD  
I AM CONCERNED ABOUT SAFETY AND Health RISKS  
this plant is producing. The cost of operation  
AND repair of this facility is A WASTE  
of money.

Thank you,

Annette Lettner

Dear Dr William D. Travers

I live in Toledo, Ohio and I am extremely concerned about the Davis Besse plant. I am asking that the Davis Besse plant be permanently shut down due to the fact of illegal disposing of nuclear waste.

I am also requesting an immediate response to my request

Sincerely

Jennifer G Mowrey

Dr. Travers,

I live in Huron, OH and with the pollutants already naturally in the air we surely do not need any extra from Davis Besse.

With the Davis Besse plant closed down it takes out the added pollutants of the air we breath. Therefore it should remain closed. Especially if the cannot nor will not keep up with repairs on regular basis.

My name is Duane Burris, my address is 131 Otwood Place, Huron, OH 44839. I would appreciate an immediate response to my letter.

Thank You,  
Duane Burris

Executive Director of Operations  
U.S. Nuclear Regulatory Comm.  
Washington, D.C. 20555-0001

The Johnston Family

To Dr. Wm D. Praser,

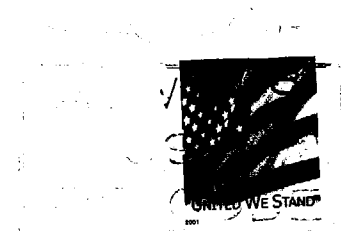

As a long time citizen of  
Toledo I would like to things  
make permanent repairs to the  
Doris Bessine plant so that  
it does.

Second some time here  
about the Gypsy moth  
situation in Toledo.

Thank you  
J. Johnston & family

Dear Dr. Travers:

This letter is in response to the news regarding the hole in the nuclear energy reactor at the Davis Besse plant. I find it difficult to understand how this problem went undetected for so long. Could it be that the powers that be, knew of the problem yet failed to inform the public until we HAD to be told? Does anybody at First Energy have the interest and well-being of the people who live here and work here at heart? I think not. As long as we pay our monthly bill they're happy.

For the sake of all of us, I would ask that you shut the Davis Besse permanently. Our family would love to live closer to Port Clinton and the Lake Erie Vacation area, but we are afraid of being any closer to Davis Besse than we already are.

Please take this letter under serious consideration and give me the courtesy of an immediate reply.

My thanks to Marcy Kaptur for calling this problem to our attention, since nobody else did..

Sincerely,

A handwritten signature in cursive script that reads "Joanne Thomas". The signature is written in black ink and is positioned below the typed name "Joanne Thomas".
